G  
The light was leaving In the west it was blue  
C G  
The children's laughter sang  
G  
And skipping just like the stones they threw  
C D  
Their voices echoed across the waves It' getting late

## CHORUS

G F C D  
It was just another night With a sun-set  
G F C D  
And a moonrise not so far be-hind To give us just enough light  
G F C D  
To lay down underneath the stars Listen to papa' translations  
(2<sup>nd</sup> - Listen to all the translations)  
G F C D  
Of the stories across the sky We drew our own constellations

INTERLUDE: G C X4

G  
The west winds often last too long  
C  
But when they calm down Nothing ever feels the same  
G C  
Sheltered under the Kamani tree Waiting for the passing rain  
G C  
Clouds keep moving to uncover the sea Stars above us chasing the day away  
G  
To find the stories that we sometimes need  
C C G D  
Listen close enough All else fade, fades away
