INTRO: Tack it up, tack it up, buddy gonna shut you down

A
It happened on the strip where the road is wide
Two cool sharks standing side-by-side (Ya)

D A
1 My fuel-injected stingray and a four-thirteen
C D E A...A...
We're revin' up our engines and it sounds real mean
Tack it up, tack it up, buddy gonna shut you down

A
2 Declining numbers at an even rate
At the count of one we both accelerate
D A
My Stingray is light, the slicks are starting to spin
C D E A...A...
But the four-thirteen's really diggin' in
Gotta be cool now, power shift here we go

D
Super stock Dart is winding out in low but

A D
3 My fuel-injected Stingray's really starting to go
To get the traction I'm riding my clutch
A E
My pressure plate's burnin' that machine's too much

A
Pedal's to the floor, hear his dual quads drink

4 **D**
And now the four-thirteen's lead is starting to shrink
He's hot with ram induction, but it's understood

A
I got a fuel-injected engine sittin' under my hood

C D E A...A...
